Vladislav Surin

Architect · Transport Planning

Moscow · iwannabetheonewho@gmail.com
Telegram: @iwannabethe1who
destroevi4.github.io/portfolio

I design streets, squares and urban spaces, including layouts, transport and pedestrian connections. I produce diagrams, sketches and visualisations, with additional experience in playable cities and transport project presentation films.

Skills & tools

Design: Streets and squares, transport and pedestrian connections, urban analysis, concept design, documentation and visualisation.

3D & BIM: Rhino 3D, Grasshopper, Revit.

Engines: Unity, Unreal Engine; Blueprints and UMG.

Graphics & video: Photoshop, Illustrator, Figma, Premiere Pro, After Effects.

Architectural experience

Independent architectural projects

Architect · Transport Planning · 2018 — 2023

- Designed streets, squares, pedestrian connections and transport layouts; prepared diagrams, sketches and visualisations.
- Worked on a square in Noyabrsk, a district concept in Krasnodar and the PRPR street and square proposals. Provided project consulting in Noyabrsk and Blagoveshchensk, Bashkortostan.

Transport Design Studio (STEP)

Architect · 2017 — 2020

- Urban analysis, transport layouts, 3D modelling and visualisation; aerial photography and parametric modelling with Grasshopper.

Lozinsky & Partners

Architect · 2015 — 2017

- Concept design, construction documentation and 3D visualisation.

ASK Dominante

Architectural Technician · 2014 — 2015

- BIM modelling and construction documentation.

Games & video projects

StopGame

Video author · March 2025 — present

- Create videos analysing game-city architecture: layouts, navigation, real-world references and how spaces support gameplay.

BRESH

Game creator · Game & Level Designer · independent project · Spring 2023 — present

- Designed all maps for a multiplayer FPS: routes, spawn positions, flanking paths and vertical connections built around switching between two worlds.

Russian Car Drift (RCD)

Level Designer · Unity · September 2023 — April 2024

- Designed and assembled a playable city: urban blocks, road network, courtyards, terrain and landmarks.

Transport project presentation videos

Direction, editing & visual effects · 2023

- Almaty: completed a presentation film in three weeks, including travel and filming. Tashkent: worked remotely from 27 October to 3 December with footage from a separate camera operator.
- Developed structure and storyboards, editing and visual effects on limited budgets. Presented the project team’s proposals through video.

Education

Moscow Film School

Filmmaking · Short-form Directing · 2017 — 2022

Moscow Architectural Institute (MARCHI)

Bachelor’s degree in Architecture · 2011 — 2016

English

Technical documentation and written communication; intermediate spoken communication (self-assessed).
